

CREATIVITY

IMAGINING WHAT YOU
COULD DO BECAUSE YOU'RE
MADE IN GOD'S IMAGE

WEEK **5**

MEMORY VERSE | Psalm 145:3

FOOD for THOUGHT :

Sometimes creativity looks like—or smells like—coffee! A Canadian man was driving along when he thought he saw a pile of trash in the snow, but when he got closer, he realized it was actually a pile of kittens! Not only were these kittens outside in the snow, but he soon discovered their tails were frozen to the ice. Thankfully, Kendall Diwisch put his creativity to use and headed back to his car for his coffee. He gently poured the lukewarm brew on the cats' tails, freeing them from the ice. Kendall then took the cats home and posted on Facebook about the experience. Before long, the kittens had a safe home together, with a family who took in all three of the young cats!

What kind of creativity did Kendall use to help the cats? When have you put creativity to use to solve a problem? Why is creativity important in everyday life and not just arts? What is a problem you see that you can use creativity to help solve?

Just for
FUN!

Watch a video of the cat tale!
